

## POPLAR

Yellow Poplar is a lightweight hardwood that retains characteristics of strength and durability. When kiln dried properly Poplar is stable and resists warping. It is a preferred wood for painted interior trim and mouldings. All C+ Better boards are kiln dried and are graded for one good face. Lengths run from 6' to 16'. Priced per linear foot.

|          |            |
|----------|------------|
| 1" x 4"  | C+Btr, S4S |
| 1" x 5"  | C+Btr, S4S |
| 1" x 6"  | C+Btr, S4S |
| 1" x 8"  | C+Btr, S4S |
| 1" x 10" | C+Btr, S4S |
| 1" x 12" | C+Btr, S4S |
| ¾" x 4"  | C+Btr, S4S |
| ¾" x 5"  | C+Btr, S4S |
| ¾" x 6"  | C+Btr, S4S |
| ¾" x 8"  | C+Btr, S4S |

## CHERRY BOARDS

A favorite of woodworkers, our clear Cherry Boards are ready to fabricate because they are surfaced.

| 1" x 4" | C+Btr, S4S |
| 1" x 6" | C+Btr, S4S |
| 1" x 8" | C+Btr, S4S |

## E-PRIME BOARDS

E-Prime Boards are made exclusively from clear, finger jointed Paulownia. E-Prime Boards represent a new standard in finger jointed trim boards due to the superior characteristics of Paulownia. Priced per linear foot.

- Standard Ze-VO prime coat protects up to 5 years before finish coat is applied.
- Highly versatile, interior or exterior uses.
- Strong yet lightweight, easy to handle.
- Naturally resistant to rot and decay.
- Very stable, resists cupping and warping.

### E-Prime Boards

All 16' lengths.

|          |                |
|----------|----------------|
| 1" x 3"  | S4S F/J Primed |
| 1" x 4"  | S4S F/J Primed |
| 1" x 5"  | S4S F/J Primed |
| 1" x 6"  | S4S F/J Primed |
| 1" x 8"  | S4S F/J Primed |
| 1" x 10" | S4S F/J Primed |

## P5 PRIMED PINE

P5 exterior grade primed boards are manufactured from highest quality knot free plantation grown Monterey Pine. All boards are treated to prevent rot and decay then coated with a two step priming process.
