

## POPLAR

A lightweight hardwood that retains characteristics of strength and durability. Poplar is stable and resists warping. A preferred wood for painted interior trim and mouldings. All C+ Better boards are KD and graded for one good face. Lengths run from 6' to 16'. **Priced per linear foot.**

1" x 4"	C+Btr, S4S

## E-PRIME BOARDS

Made from clear, finger jointed Paulownia. Creates a new standard in FJ trim boards.

- Standard Ze-VO prime coat protects up to 5 years before finish coat is applied.
- Highly versatile, interior or exterior uses.
- Strong yet lightweight, easy to handle.
- Very stable while resisting rot and decay.

**E-Prime Boards** All 16' lengths.
